31 January 1961

MEMORANDUM FOR: Chief, CI/OA

SUBJECT:

CAMISE (C-86982)

1. We regret our delay in replying to your requests for information dated 19 December 1960 and 19 January 1961 but responsibility for this case was transferred during that interim and the outstanding action request was inadvertently overlooked.

2. Specific enswers to your request are as follows:

A. Green List Results

The collateral reference in Green List was reviewed by a responsible Branch officer who reported that the document cited could be ordered from the Library. This has been done and we shall inform you of its content and pertinence to Subject as soon as we have reviewed it.

B. Field Traces

Since the Approval request was initiated at Readquarters a request for Field Traces was sent to the Field at the time we informed them of our action to acquire Approval. To date replies have been received from DOS (including All Agency Field traces), from Munich, and from Bonn Base. These results are as follows:

(1) CGB, Germany files contain no additional information on Subject and All-Agency replied with no traces.

(2) Munich forwarded the following:

Information on Subject, the source of which is was passed to Mimich my UPSILL in October 1956. The information deals with the frauds which were discovered in the KUBARK sponsored West Berlin paper Telegraf (Project TROASIS).

DECLASSIFIED AND RELEASED BY CENTRAL INTELLIGENCE AGENCY SOURCES METHODS EXEMPTION 3B2B NAZI WAR CRIMES DISCLOSURE ACT BATE 2005

SEGNET

In the reports it is stated that Subject was of great aid to the Telegraf publisher in obtaining American support for the newspaper. BLIM is alleged by _____ to have worked for Americans in Frankfurt for which service she was made an editor of the Telegraf and then appointed the Bonn correspondent of Telegraf. It was also claimed that Subject had been the mistress of Count CIANO. We wish to point out that _____ reporting on Telegraf matters, in which he was deeply and nefariously involved, would of necessity be colored.

(3) Bonn Base submitted the following:

"a. Confidential memorandum from the BfV to
the KURARK Limison Officer in Bonn, dated 2 September
1957, Subject: Frau Hilde FURNIN, widowed BLIM,
divorced HEETZ, nee BERKHARDT, born 16 September 1919
in Coernissa near Weimar. The BfV advised that it
had received information that Subject, a correspondent
for the "Neue Rhein Keitung' in Bonn, maintains contact
with the Soviet Embassy in Bonn and that 'Pravia'
correspondent Haumov occasionally cites articles from
Subject's newspaper. The BfV also advises that,
according to Subject's husband (Dr. Carl Heinz FURWIN
born 6 February 1915 in Koenigsberg, editor-in-chief
of 'Welt der Arbeit') Subject worked for American
intelligence subsequent to 1945. The BfV further
advises that, according to unevaluated chance information, Subject is supposed to have been a member of
'Rote Kapelle', but the BfV size states that its own
files would make it appear that this information is
false. The BfV then asks whether the foregoing data
can be confirmed.

"b. Confidential memorandum from the BfV to the KUBARK Limison Officer in Bonn, dated May 1958, same subject, requesting an ensure to the foregoing memorandum.

"c. Confidential memorandum from the KURARK Linison Officer in Roum to the RTV, dated 15 September 1959, same subject, advising the RTV that, although representatives of this office were in contact with Subject following World War II, the association was severed soon thereafter. Further, that our files fail to provide any confirmation of Subject's alleged connection with the 'Rote Expelle!" (4) Concerning the information submitted by Bonn, that base states that they have no information on CAMISE's reported contacts with the Soviet Embassy and the "Pravda" correspondent. If such contacts existed or do exist, they in all probability represent the natural outgrowth of Subject's journalistic activities in the Bonn area. The Field will, however, attempt to obtain further information on this aspect of Subject's activities.

C. RI Traces

Attached hereto is a summary of pertinent RI Traces on Subject.

- 3. Forwarded under cover of this Memorandum are two copies of PRQ I on Subject and a new Form 772 requesting Full Operational Approval based upon current Field information on proposed use of Subject. We have requested that the Field submit an up-to-date FRQ II which will be forwarded as soon as it is received in Headquarters.
- 4. In answer to your final question on Form 889 dated 19 January 1961, Subject continues to be of interest, we do not wish to cancel her processing and we would appreciate your proceeding with her Approval insofar as is possible given the information still outstanding.
